### **Report of 1 percent manual tally count of random precincts and batches per California Election Code**

#### **Section 15360(e)**

I, Ryan Ronco, County Clerk-Recorder-Registrar of Voters, County of Placer, State of California, do hereby certify that from September 22, 2021, through October 8, 2021 a one percent manual tally was conducted and completed in conjunction with the September 14, 2021 California Gubernatorial Recall Election.

The California Elections Code requires each local election official to conduct a manual count of all contests on ballots cast in a randomly-selected one percent of the Election Day voting precincts and/or batches in order to verify the accuracy of the machine count. This manual tally occurs during the 30-day vote-canvassing period prior to official certification of election results and augments extensive pre-election testing activities to demonstrate the integrity of the vote tabulation system.

This report addresses the manual-count to machine-count comparison of a randomly-selected one percent of the Scanner units deployed on Election Day. With 129 polling place precincts and 136 mail ballot precincts, Placer County would need to randomly select 2 (two) precincts and 3 (three) batches to comply with Elections Code Section 15360. Using the EIMS One Percent Random Sample Report two precincts were selected. We ran the report six times to get six random lists of precincts and a six-sided die was used to determine which list of precincts to use. The following precinct numbers were selected on September 15, 2021: 0161005 and 0460638. In addition, at the time of the random draw we had counted 217 batches of vote by mail ballots, mail ballots, and Uniformed and Overseas Citizens Absentee ballots. We assigned those batches numbers 1 through 217 and ran a random generator on those numbers six times to get six lists after which a six-sided die was used to determine which list to use. Furthermore we selected an additional 17 batches for a total number of 20 batches to begin with. The batches were randomly selected using a six-sided die: 4, 6, 9, 15, 32, 36, 49, 52, 56, 66, 87, 88, 99, 130, 135, 137, 149, 182, 191, and 206. Further, to cover the remaining races on the ballot the following precinct was randomly selected: 0513201. Furthermore, we completed a hand count of 100% of the ballots put through the scanner at the polls on Election Day and an additional 58 batches before canvassing ended.

The final number of ballots hand counted for the one percent manual tally this election totaled 38,800 and equals 19.24% of the ballots cast. The selected precincts/batches showed exact matching tallies between the manual tally and the election summary report.

The entire manual tally was conducted in public view by hand without the use of electronic equipment, no individuals who performed the manual tally at any time during the manual tally process were informed of the corresponding machine tally results, and no poll workers were assigned to participate in the manual tally. Further, tally logs of the manual tally process were kept and have been made available to the public.

An election notice was published in the legal section of the newspaper to comply with the notice requirements. Lastly, the entire manual tally process was completed prior to certification of the California Gubernatorial Recall Election.

IN WITNESS WHEREOF I have set my hand and affixed my official seal on this 14<sup>th</sup> day of October 2021, in accordance with the laws of the State of California.
